Welcome to Stokes Seeds®

“Quality Seed Since 1881”

Our acquisition of the Siegers Seed Company in December of 2019 has been a very exciting experience for all of our dedicated staff at Stokes Seeds. We remain very honored for the opportunity to continue to serve and support all of our commercial vegetable customers from Michigan to Florida.

We now have five distribution centers ready to serve all commercial growers from small to large which are specifically located in: Holland Michigan (Main Facility) Buffalo NY, Vineland NJ, Moultrie GA and Labelle FL. We have added experienced staff in all departments including Sales, Product Development, Customer Service, Production & Shipping to support our growing business.

We also continue to focus and expand our comprehensive product lines via additional research and on farm trialing efforts which are supported by our partnerships with a broad range of breeders – producers from across the world. Our industry leading Territory Managers have the experience and passion to provide accurate seed prescriptions best suited to meet your production and profit goals.

Thank you for your business and we look forward to a growing future together.

Sincerely,

Wayne Gale
